

We have groups based at:

- Mangamuka
- Honeymoon Valley, Peria
- Fern Flat, Shepherds Rd
- Otangaroa

We are on a collaborative journey together to restore our Ngahere ora/ healthy native forest

Each group working at own pace appropriate to local community

Track network now 120 km and developing on ridges, then working down, aiming for 140 km loop tracks for efficient working

Over 1400 pest traps have been laid out with more to come

On-going trap baiting and monitoring

Wananga and Hui to share and learn

Join us, be involved

August 2022

Governance group overseeing whole project:

Shayne Waldron
Ngawai Tuson
Dean Baigent-Mercer
Lesley Baigent (kiwi advocate)
Steve Allan (trapping expert)
Jamie Werner (DoC)
