

# Application for a Resource Consent – Resource Management Act 1991

This application form must be provided with applications to the council for new and replacement resource consents, and changes to the conditions on an existing resource consent.

If you would like to talk or meet with a consents officer to discuss your application prior to lodging with the council, please phone **0800 002 004** or email request to [info@nrc.govt.nz](mailto:info@nrc.govt.nz).

## PART 1: Administration Matters

**1 Full Name of Applicant(s)** *(the name(s) that will be on the resource consent document)*

Surname: Colbran

First Names: Simon Krysto

**OR**

If the application is being made on behalf of a trust, the Trustee(s) who has/have signing authority for the trust must be named.

Trust Name: .....

Trustee's Name(s): .....

**OR**

Company Name: .....

Contact Person: .....

Email address: simon0670@hotmail.com

*Please Note: If an email address is provided, then all correspondence for this application will be via email.*

Postal address: 278 Hautapu Road, RD2, Kiriokhe

Telephone: *(please tick preferred contact number)*

Residential .....

Business .....

Mobile 020 406 82422

---

**2 Details of the Address for Service of documents if different from the Applicant (e.g. Consultant). This address will be used for all documents if completed.**

**Company Name:** .....

**Contact Person:** .....

**Email address:** .....

*Please Note: If an email address is provided, then all correspondence for this application will be via email.*

**Postal address:** .....

**Telephone:** (please tick preferred contact number)

Residential .....  Business .....

Mobile .....

---

**3 Invoices**

**Charges relating to the processing of this resource consent application should be sent to:**

Applicant  Address for service

**Charges relating to the ongoing monitoring of a resource consent should be sent to:**

Applicant  Address for service

---

**4 Name and Address of all Owners/Occupiers of the Site relating to Application if different from the Applicant**

**Owner(s):** .....

**Postal Address:** .....

**Telephone:** (please tick preferred contact number)

Residential .....  Business .....

Mobile .....

**Occupier(s):** .....

**Postal Address:** .....

**Telephone:** (please tick preferred contact number)

Residential .....  Business .....

Mobile .....

*Please Note: If the applicant is not the owner of the land to which the activity relates, then it is good practice to submit the application with written approval from the landowner.*

---

## 5 Extending Timeframes

The Resource Management Act 1991 (RMA) specifies timeframes for processing resource consent applications (e.g. 20 working days for a non-notified application); however, these timeframes can be extended, if necessary, with the Applicant's agreement. If the council does not meet these timeframes, then it is required to refund 1% of the total processing cost of the application for each day it exceeds the timeframe up to a maximum of 50%.

Do you agree to the council extending RMA resource consent processing timeframes?

- Yes**, provided that I can continue to exercise my existing resource consent until processing of this application is completed.  
*(Replacement application only. No refund is required to be paid until after the existing resource consent expires.)*
- Yes**, provided that the extension is for the specific purpose of discussing and trying to agree on resource consent conditions.
- Yes**, provided that the application process is completed before this date (dd/mm/yy):
- No**.
- 

## 6 Deposit Fee

An initial minimum fee is payable with this application. These fees can be found on the council's website [www.nrc.govt.nz](http://www.nrc.govt.nz) – **Schedule of Minimum Estimated Initial Fees** information. Please contact council consents staff if you need assistance with determining the correct minimum initial fee.

Unless agreed to prior to lodging your application, the council will not commence processing your resource consent application until payment of the minimum initial fee is received (i.e. the statutory processing time for the application will not start).

This minimum initial fee may be paid online, by cheque, or by EFTPOS at one of the council's offices.

Instructions for paying online can be found on the council's website at "[Pay online](#)". Please use either the first six numbers of your resource consent (e.g. CONXXXXXX or AUT.XXXXXX), if known, or the Applicant's name as the Reference/Customer number when paying online.

If you do pay online, then please enclose evidence of payment so that the council is aware that the payment has been made.

If the costs of processing the resource consent application are greater than the minimum estimated initial fee, then the applicant will be required to pay the additional actual and reasonable costs of processing the application.

### **Note: Annual User Charges for Resource Consent Holders**

Holders of resource consents will in most cases be required to pay a "Minimum Annual Charge" for administration of the resource consent once issued. There is also likely to be additional annual charges for the monitoring of the resource consent, which will be dependent on the type of activity the resource consent is for. These charges are detailed on the council's website [www.nrc.govt.nz](http://www.nrc.govt.nz) in the Annual Charges section of the council's **Charging Policy**.

---

---

## 7 Applications for Activities within the Coastal Marine Area (CMA)

Prior to lodging an application with the council to undertake any activity in the coastal marine area (CMA), the applicant is required under the Marine and Coastal Area (Takutai Moana) Act 2011 to notify the application to all groups who have applied for customary marine title in that location, and seek their view on the application. This notification should, as a minimum, include a summary of the application that provides sufficient detail for a group to understand what is being proposed

The council cannot accept an application to undertake an activity in the CMA unless the applicant for the resource consent provides evidence of this notification occurring. A response from customary marine title groups is not required by the council.

To ensure you meet the above requirement, you are advised to contact council consents staff to obtain a list of all of the current customary marine title applicant groups within the area where you are proposing to apply for a resource consent.

Information on customary marine titles is available on the [Ministry of Justice/Marine and Coastal Area Applications](#) website.

---

## 8 Consultation

The RMA does not require any person, including the applicant or council, to consult with anyone. It is, however, best practice to do so and will allow the council to make a more informed decision.

It is important to remember that consultation does not require reaching an agreement – it is to allow you and the council to be informed about a person's views. If you do consult, and there are concerns raised that cannot be resolved and you still want to go ahead with your application, then you should have made a genuine attempt to consult with that person(s) in an open and honest manner. Their views should be recorded so they can be taken into account by the council when considering your resource consent application.

---

# PART 2: Application Details

## 1 Description of Activity

Please describe in detail the activity for which resource consent is being sought.

Swing mooring

## 2 Location Description of Activity

Site Address: Totara North

Legal Description: /

*(Legal description can be obtained from your Certificate of Title, valuation notice, or rates demand)*

## 3 Site Plan

On a separate page (*minimum A4 size*), please provide a site plan showing the location of the activity, site layout, and surrounding environment in relation to property boundaries. Please include any buildings or developments on the site.

These plans should be provided electronically and be of good quality, to enable use in resource consent documentation.

If you do not have access to mapping software, we recommend you use the council's "**Property and Boundaries**" map available on our website <https://localmaps.nrc.govt.nz/LocalMapsGallery/>.

This council map contains aerial photography and shows property boundaries and details. You can carry out a property search and print maps of aerial photography.

## 4 Resource Consent(s) being Applied for

### Coastal Permit

- |   |   |                                    |
|---|---|------------------------------------|
| <input checked="" type="checkbox"/> Mooring | <input type="checkbox"/> Marine Farm                    | <input type="checkbox"/> Structure |
| <input type="checkbox"/> Pipeline/Cable     | <input type="checkbox"/> Other ( <i>specify</i> ) ..... |                                    |

### Land Use Consent

- |   |   |  |
|---|---|--|
| <input type="checkbox"/> Quarry                         | <input type="checkbox"/> Earthworks             | <input type="checkbox"/> Dam Structure                 |
| <input type="checkbox"/> Vegetation Clearance           | <input type="checkbox"/> Construct/Alter a Bore | <input type="checkbox"/> Structure in/over Watercourse |
| <input type="checkbox"/> Other ( <i>specify</i> ) ..... |   |  |

**Water Permit**

- Stream/Surface Take       Damming       Groundwater Take
- Diverting Water       Other (specify) .....

**Discharge Permit**

- Domestic Effluent to Land     General Discharge to Land     Farm Dairy Effluent to Land/Water
- Air       Water       Other (specify) .....

**5 Is this application to replace an existing or expired resource consent(s)?**  Yes  No

If Yes:

(a) Please state the resource consent number(s):

.....

.....

(b) Do you agree to surrender the existing resource consent once a new one has been issued:  Yes  No

**6 Is this application to change a condition of an existing resource consent?**  Yes  No

If Yes, please state the resource consent number(s):

.....

.....

**7 Please specify the duration sought for your resource consent(s) -**

*Only for new or replacement applications.*

15 years      ..... months

**8 Do you also require consent(s) from a district council?**  Yes  No

If Yes, please complete the following:

Type of consent required? .....

Has it been applied for?  Yes  No

Has it been granted? (If Yes, please attach)  Yes  No

## PART 3: Assessment of Environmental Effects (AEE)

### 1 An AEE must be provided with your application that has been completed in accordance with the requirements of [Schedule 4 of the RMA](#).

As a minimum, your AEE must include the following:

- Description of the environmental effects of the activity.
- Description of ways in which adverse environmental effects can be avoided, remedied or mitigated.
- Names of people affected by the proposal.
- Record of any consultation you have undertaken, including with affected persons (if any).
- Discussion of any monitoring of environmental effects that might be required.
- An assessment of the activity against any relevant objectives, policies, or rules in the Regional Plans.
- For a coastal permit, an assessment of your activity against any relevant objectives and policies of the New Zealand Coastal Policy Statement.
- An assessment of effects on tangata whenua and their taonga.

This AEE needs to be provided in a separate document attached to this application form.

Any activity needing a resource consent will have some environmental effects. The council will not accept an AEE that says there are no environmental effects from the activity.

You will need to complete the AEE at a level that corresponds with the scale and significance of the effects that the activity may have on the environment. Depending on the scale of the activity, you may need to get help from an expert(s) to prepare your AEE.

The council has a set of standard AEE forms for a selection of common activities. These AEE forms do not cover the relevant objectives, policies, or rules in the Regional Plans nor effects on tangata whenua. If you use one of these forms, then you will need to provide a separate assessment of these matters. These AEE forms can be found on the council's website [www.nrc.govt.nz](http://www.nrc.govt.nz) – “Forms and Fees”.

It is important that you provide the council with a complete and well-prepared AEE, otherwise the council may not accept your application.

If your application is for a change to a condition of resource consent under Section 127 of the RMA, then your AEE only needs to cover the effects of the change being requested.

---

### 2 Assessment of Effects on tangata whenua and their taonga

The Regional Plan for Northland requires that an AEE must also include an assessment of the effects on tangata whenua and their taonga if one or more of the following is likely:

- Adverse effects on [mahinga kai](#) or access to [mahinga kai](#); or
- Any damage, destruction or loss of access to [wāhi tapu](#), sites of customary value and other ancestral sites and [taonga](#) with which Māori have a special relationship; or

---

## Checklist

The following information **must** be included in your application to ensure that is not returned as incomplete under Section 88 of the RMA.

- All applicable application form details have been completed.
  - Assessment of Environmental Effects in accordance with Schedule 4 of the RMA.
  - Assessment of effects on tangata whenua and their taonga.
  - Site plan(s). These are required to be of good quality, and preferably electronically, to enable use in resource consent documentation.
  - Evidence of payment of the required minimum estimated initial fee.
  - If you are applying for a coastal permit, evidence that you have provided notice of your application to **all groups who have applied for customary marine title in the location of your application and that you have sought their view on the application. The council cannot legally accept an application without evidence of this.**
-

- Adverse effects on indigenous biodiversity in the beds of waterbodies or the coastal marine area where it impacts on the ability of tangata whenua to carry out cultural and traditional activities; or
- Adverse effects on [taiāpure](#), [mātaītai](#) or Māori non-commercial fisheries; or
- Adverse effects on protected customary rights; or
- Adverse effects on sites and areas of significance to tangata whenua mapped in the Regional Plan for Northland (refer [Maps | Ngā mahere matawhenua](#)).

Your AEE must include an assessment of whether any of the above affects are likely to occur.

If they are likely to occur, then you will need to complete a Cultural Impact Assessment (CIA) and provide this with your resource consent application. The Regional Plan for Northland provides details of what must be included in this CIA, and should be referred to.

The best way to find out what the effects of your proposal may be on tangata whenua is to contact local iwi/hapū groups (who represent tangata whenua) and discuss your proposal with them. Council consents staff can provide a list of contact details for local iwi/hapū groups in the area of your proposal. You can then send a copy of your proposal to these groups and seek feedback from them prior to lodging your application. Some iwi/hapū have also developed iwi/hapū Environmental Management Plans that are useful documents that can assist to identify issues of concern to those iwi/hapū for activities occurring in their rohe. The iwi/hapū Environmental Management Plans can be obtained directly from the iwi/hapū or from the council upon request.

### 3 Assessment of Affected Persons

If the adverse effects of your activity on a person are likely to be minor, or more than minor, then that person is deemed to be an “affected person” for your resource consent application.

An affected person may include neighbouring land owners and occupiers, and/or organisations such as the Department of Conservation, Land Information New Zealand (LINZ), Fish and Game Council, Iwi and Hapū, and community groups.

If you do not think there will be any affected persons for your resource consent application, then you do not need to provide any details on this matter in your AEE. However, the council will still undertake an assessment of whether there are any affected persons as part of processing the resource consent application.

If there are persons you have identified who may be affected, and you have discussed your proposal with these persons, please record any comments made by them and your response, and include this information with your application. If you have written approvals from these parties, then these should be provided as well. The council has a written approval form that can be used for this purpose.

#### **Iwi Settlement Acts**

If there is an **Iwi Settlement Act** that covers the area of your application, then there may be “Statutory Acknowledgement” areas which could be adversely affected by your activity. If the location of your activity is within, adjacent to, or may have an adverse effect on, a Statutory Acknowledgement area, then you will need to assess whether the trustees of the Statutory Acknowledgement are affected persons. Information about Statutory Acknowledgements in Northland can be found on the council’s webpage at [“Statutory Acknowledgements in Northland”](#).

---

## Information Privacy Issues

The information you provide in this application is regarded as official information. It is required under the provisions of the Resource Management Act 1991 to process this application. The information will be held by the council and is subject to the provisions of the Local Government Official Information and Meetings Act 1987, and the Privacy Act 1993. The information you provide in this application will generally be available to the public.

---

**Under Section 88 and/or 127 of the Resource Management Act 1991 (RMA), the undersigned makes this application for resource consent(s).**

- 1 I/We confirm that I have authority to sign on behalf of the person(s) named as the applicant(s) for this application for resource consent.**
- 2 I/We have read, and understand, all of the information contained within this application form, including the requirement to pay any additional actual and reasonable costs for the processing of the application.**
- 3 I/We confirm that all of the information provided is true and correct and I understand that any inaccurate information provided could result in my resource consent (if granted) being cancelled.**

# Part B: Assessment of Environmental Effects Minor Coastal Activity

This application is made under Section 88/Section 127 of the  
Resource Management Act 1991

To: Consents Department  
Northland Regional Council  
Private Bag 9021  
Te Mai  
Whangārei 0143

Whangārei office: 09 470 1200  
0800 002 004  
Email: info@nrc.govt.nz  
Website: www.nrc.govt.nz

## PART B – ASSESSMENT OF ENVIRONMENTAL EFFECTS

Your application must include an Assessment of Effects on the Environment. This form and the associated Information Requirement Booklet will help you prepare it.

An assessment of effects is required so that you and others can understand what happens to the environment when you carry out a minor coastal activity, whether it is existing or new. This will help you to propose ways to minimise those effects to the council’s satisfaction.

The degree of detail required is in proportion to the scale of the environmental effects of your proposal. If the size of your proposed activity or the scale of its potential effects is significant, a report by a professional advisor in support of your application may be required.

Please note that the word “environment” includes the surrounding coastal water, adjoining land, any surrounding resource users, and local iwi.

It is advised that you make an appointment with a council officer to discuss your application prior to lodging it. This will help you supply all the required information at the onset and ensure the efficient processing of your application.

### A. Describe the Proposed Activity

#### A.1 Describe the proposed activity(ies):

NEW Swing Mooring For 20M VESSEL  
IN TOTA NORTH

## Minor Coastal Activity – AEE 10

A.2 Is the proposed activity new, or an alteration/extension of an existing activity or structure?

New

Existing

A.3 If the application is to continue or alter an activity or structure, is there any previous resource consent or authority (e.g. Harbours Act approval or Water Right)?

No

Yes

If so, what are the existing permit numbers?

ATTACH A COPY OF THE APPROVAL

## B. Site Details

B.1 Describe the site of the proposed activity, including reference to existing structures in the coastal marine area and on the adjacent land. Ensure that a detailed map is provided as outlined on page 3.

Totara North

B.2 Describe the seabed materials (e.g. rock, sand, or shingle) at the site of the activity and in the surrounding area.

Silt

B.3 Describe the plants and animals (e.g. mangroves, saltmarsh or shellfish beds) at the site of the activity and the surrounding area.

n/a

COMMON

MARINE

B.4 Describe any cultural areas, historic areas, scenic features and food gathering areas within 500 metres of the proposed activity.

n/a

NO

SIGNIFICANCE

B.5 You **must** attach a map that shows the following (refer to page 3):

- The location of the proposed activity.
- The legal boundaries of any adjoining properties.
- Any adjacent public roads, esplanade reserves, marginal strips.
- The location of the coastal marine boundary (i.e. mean high water springs).
- The location of any existing coastal activities within 500 metres (including existing structures).

It is also advised that you supply photographs of the site and the surrounding area.

- B.6** If the application includes any structure (e.g. jetty, boat ramp, or discharge pipes), you **must** attach a structure plan that shows the following (refer to page 4):
- the dimensions of the structure;
  - front view;
  - side view;
  - plan view; and
  - position of mean high water springs (MHWS) – i.e. high tide mark.

**C. Assessment of Effects on the Environment**

**C.1** Will the proposed activity have any impact on plant, animal or marine life?

- No, why not?  
COMMON ACTIVITY
- Yes, describe impact

**C.2** Describe the visual impact the proposal will have, and include an assessment of compatibility with existing activities, structures and surroundings.

PLACED AMONG OTHER MOORINGS

**C.3** Will the proposed activity have any impact on other users of the area?

(include any restriction on public access to and along the foreshore, during construction and/or once construction is finished)

- No, why not?
- Yes, describe impact  
CONSISTANT WITH OTHER MOORINGS IN AREA.

## Minor Coastal Activity – AEE 10

C.4 Will the proposed activity have an effect on coastal processes of the area (e.g. erosion) and/or on water quality?

No, why not?

---

---

---

Yes, describe impact

THE INSTALLATION WILL CAUSE  
MINOR SILT DISTURBANCE

---

---

---

---

---

---

---

C.5 Mitigation Measures

If you have identified any potential effects that may be more than minor in your assessment above, please consider and describe the steps you propose to take to mitigate these effects.

N/A

---

---

---

---

---

---

---

---

---

---

---

---

C.6 Alternatives

Sometimes the adverse effects of a proposal can be mitigated by the consideration of alternatives. Please identify and describe any alternative locations/designs/methods.

NONE AT FULL CAPACITY

---

---

---

---

---

---

---

---

---

---

---

---

**C.7 Consultation**

Written approvals regarding your proposal are normally required from the adjoining landowners/occupiers and consultation undertaken with the Department of Conservation and local iwi is advised. If there is an adjacent esplanade reserve (marginal strip) administered by the Department of Conservation or the district council, then written approval is normally required from that agency.

Any letters of concern/support or comment from persons consulted should be attached to this application form.

The Northland Regional Council can supply you with prescribed written approval forms to aid you with the consultation.

**Will the proposed activity have an effect on any neighbouring property owners?**

- No, why not?  
BOAT MOORING IS IN THE  
AREA.
- Yes, describe impact  
 \_\_\_\_\_  
 \_\_\_\_\_  
 \_\_\_\_\_  
 \_\_\_\_\_

Have you consulted with any of the following potentially affected parties?

	Yes	No
Neighbours	<input type="checkbox"/>	<input type="checkbox"/>
Other users of the coastal marine area	<input type="checkbox"/>	<input type="checkbox"/>
Department of Conservation	<input type="checkbox"/>	<input type="checkbox"/>

**Subject:** A887 Simon Colbran - new mooring Totara North - recommendation submitted

Hi Jim

Application for a 'new mooring' in Totara North – this is the one for Philip V . Vessel is according to the application (attached) 18m LOA 2.5m draught and 40T displacement. Which means its shrunk since its original application in 2014 when it was 19m LOA 2.6m draught with 65T displacement.

The mooring is to be a 2x 4T concrete block system, but it will need a contractor to sort out some of the construction details as the submitted application is lacking a little clarity. The application would seem to indicate a rode of 4/5/6 which is not sufficient to meet the guidelines and doesn't actually make sense if there is a chain bridle .

For the purposes of working out the swing circle I've used a rode of 9 (includes bridle chain ) 5/ 7 that gives a swing circle of 39.5m in 3.3m at CD.

The position given in the application is in DD converted to DDM is 35° 02.7231'S 173° 43.7514'E.

Recommend approve application on condition that mooring is booked for inspection and service within 2 weeks of HM approval being given, and is inspected and serviced by that contractor at the first available opportunity. The contractor will be instructed to report to the moorings team at the time the mooring is decked, and any work required to meet the mooring guidelines will be carried out at the time on instruction of this office and at owners expense.

The mooring area has been designated a 'restricted discretionary' area, so the mooring will also require resource consent. It is strongly recommended to the applicant that he use his contractor of choice to act as agent in the consent application. I will expect a resource consent application to be lodged shortly after the inspection and service of the mooring.

**Ngā mihi**  
**Regards**

Weight Shackle	36.5-37/38mm + 38mm	1ea	x			
Join Chain	n/a					
Join Chain Shackle	n/a					
Weights	2 x Round concrete	2 x 4 Tonne	x			
Attachment Eye	2 x 32mm + 2 x 32mm	1x	x			

#### Comments

Mooring lifted at the above coordinates. Owner had installed his own top chain, swivel and 2nd chain. The mooring did not have any bottom chain emitting from the centre of the bridle - installed 5m at the instruction of the Harbour Master. 1 x bridle chain shackle was found unwelded - welded at service. **Items installed:** 1 x 32mm shackle below 2nd chain, 5m x 38mm bottom chain, 1 x 38mm bottom chain connection shackle.

<b>REPORT ABBREVIATIONS:</b> <b>S</b> = Satisfactory, item should last 3 yrs <b>R</b> = Reasonable, item may not last 3 yrs, reinspect in 18-24 months <b>RWW</b> = Railway wheel <b>WR</b> = Welded ring	<b>SUMMARY MOORING CONDITION:</b>

Tēnā koe Simon

Firstly, thank you for the application and the continued conversations that have occurred over the past few months.

Te Rūnanga o Whaingaroa, as Mandated Iwi Authority for Ngāti Kahu ki Whangaroa/Ngāpuhi ki Whangaroa, declares the Whangaroa Harbour to be a **taonga** of Whangaroa iwi and hapū. Te Rūnanga o Whaingaroa are opposed to contamination of any kind deliberately or accidentally being introduced into the harbour. This includes the impact of any development or activity including forestry, agriculture, horticulture, farming, commercial aquaculture, mining, pest control, domestic and commercial sewerage, stormwater run-off, marine commercial and recreational craft discharge and any other development or activity that may introduce harmful foreign bodies into the Whangaroa harbour.

Furthermore, Te Rūnanga o Whaingaroa recognises an absence of Iwi involvement in the appointment of a Whangaroa harbour master and associated roles. As such, Te Rūnanga o Whaingaroa has a strategic objective to limit the number of moorings/marina berths within the harbour to a sustainable level e.g. numbers, visual impact traffic, on-shore infrastructure capability.

With that in mind, Te Rūnanga o Whaingaroa recognises your mooring application – with an agreement in principle, pending an assurance from Northland Regional Council and the Northland Harbour Master that the mooring application is a renewal application.
